Universal Brand SEO Content System - Executable Prompts

SYSTEM OVERVIEW

This system consists of 3 executable prompts that work for any brand. Simply update the header variables and execute in sequence.

Part 0: CONTENT ARCHITECTURE PLANNING (Execute First)

BRAND & PROJECT VARIABLES

BRAND = [TYPE YOUR BRAND NAME]

INDUSTRY =[WHAT YOU SELL IN YOUR PRODUCT CATALOG]

FOUNDED =[WHERE IS YOUR COMPANY/BRAND STARTS]

CORE_VALUES = [CORE_VALUES_LIST]

BRAND_HERITAGE = [BRAND_HERITAGE_DESCRIPTION]

MISSION = [MISSION_STATEMENT]

Brand_Story = [BRAND_STORY_LONG_QUOTE_OR_PARAGRAPH]

DISTRIBUTION =[DISTRIBUTION_CHANNELS_OR_STORE_COUNT]

TARGET_AUDIENCE = [TARGET_AUDIENCE_DESCRIPTION]

WEBSITE_BASE = [WEBSITE_BASE_URL]

CONTENT PROJECT VARIABLES

MAIN_TOPIC = [MAIN_TOPIC_TITLE]

PRIMARY_KEYWORD = [PRIMARY_KEYWORD]

SECONDARY_KEYWORD = [SECONDARY_KEYWORD]

TARGET_LOCATION = [TARGET_LOCATION]

CONTENT_LEVEL = [CONTENT_LEVEL]

USER_JOURNEY_STAGE = [USER_JOURNEY_STAGE]

UPDATE_FREQUENCY = [UPDATE_FREQUENCY]

SITE ARCHITECTURE VARIABLES

MAIN_PILLAR_PAGE = [MAIN_PILLAR_PAGE]

MAIN_PILLAR_URL = [MAIN_PILLAR_URL]

SUB_PILLAR_PAGE = [SUB_PILLAR_PAGE]

SUB_PILLAR_URL = [SUB_PILLAR_URL]

SISTER_CLUSTERS = [SISTER_CLUSTERS]

PRIMARY_PRODUCT_URL = [PRIMARY_PRODUCT_URL]

FEATURED_PRODUCT_URL = [FEATURED_PRODUCT_URL]

CONTENT LEVEL

==========

VARIABLE TABLE (SELECT ONE)

==========

Choose ONE option only:

CONTENT_LEVEL_ALLOWED = [PILLAR_L1, SUBPILLAR_L2, CLUSTER_L3, SUPPORT_L4]

CONTENT_LEVEL = [CLUSTER_L3]

PILLAR_L1 = [Level 1: Pillar Page (Comprehensive Guide, 3,000-6,000 words)]

SUBPILLAR_L2 = [Level 2: Sub-Pillar Page (In-depth Topic, 2,000-4,000 words)]

CLUSTER_L3 = [Level 3: Cluster Content (Specific Question, 1,500-3,000 words)]

SUPPORT_L4 = [Level 4: Support Content (Quick Answer, 800-1,500 words)]

JOURNEY STAGE

Choose ONE option only:

USER_JOURNEY_STAGE_ALLOWED = [AWARENESS, CONSIDERATION, INTENT, PURCHASE]

USER_JOURNEY_STAGE = [CONSIDERATION]

AWARENESS = [Awareness Stage (Focus on Problem Solving & Education)]

CONSIDERATION = [Consideration Stage (Focus on Comparison & Best Options)]

INTENT = [Intent Stage (Focus on Why Buy This Specific Product)]

PURCHASE = [Purchase Stage (Focus on Deal, Warranty, & Specs)]

UPDATE FREQUENCY

Choose ONE option only:

UPDATE_FREQUENCY_ALLOWED = [DAILY, WEEKLY, MONTHLY]

UPDATE_FREQUENCY = [MONTHLY]

DAILY = [Daily Optimization]

WEEKLY = [Weekly Optimization]

MONTHLY = [Monthly Optimization]

PRODUCT KNOWLEDGE

product_knowledge = [product_knowledge]

PROMPT EXECUTION:

You are a content strategist planning SEO content architecture for [BRAND].

Your Task: Create a comprehensive content architecture plan for the topic [MAIN_TOPIC] that fits within our existing site structure.

Brand Context:

- **Industry: [INDUSTRY]**
- **Founded: [FOUNDED]**
- **Core Values: [CORE_VALUES]**
- **Heritage: [BRAND_HERITAGE]**
- **Mission: [MISSION]**
- **Brand Story: [Brand_Story]**
- **Target Audience: [TARGET_AUDIENCE]**

Current Site Structure:

- **Main Pillar: [MAIN_PILLAR_PAGE] ([MAIN_PILLAR_URL])**
- **Sub-Pillar: [SUB_PILLAR_PAGE] ([SUB_PILLAR_URL])**
- **Content Level: [CONTENT_LEVEL]**
- **Sister Topics: [SISTER_CLUSTERS]**

Deliverables Needed:

1. **Content Hierarchy Map - Show how this content fits in our site architecture**
2. **Keyword Cluster Strategy - Primary, semantic, and local keywords for [TARGET_LOCATION]**
3. **Apply [product_knowledge] - make our article unique, Insightful, educational materials with professional knowledge**
4. **Competitive Gap Analysis - What competitors miss that we can cover**
5. **Internal Linking Blueprint - Upward, lateral, and product linking strategy**
6. **Content Depth Requirements - Specific sections needed for E-E-A-T**
7. **Brand Integration Points - How to weave [CORE_VALUES] naturally into content**
8. **Performance Metrics - Success criteria and tracking plan**

Research Requirements:

- **Analyze top 5 competitors for [PRIMARY_KEYWORD]**
- **Identify 3+ expert sources (medical, industry, fashion)**
- **Find recent statistics/studies (2024-2025)**
- **Map user search intent for [PRIMARY_KEYWORD] and [SECONDARY_KEYWORD]**

Output Format: Detailed strategic plan with specific recommendations for content creation.

PART 1: RESEARCH-BACKED OUTLINE CREATION (Execute Second)

BRAND & PROJECT VARIABLES

BRAND = [TYPE YOUR BRAND NAME]

INDUSTRY = [WHAT YOU SELL IN YOUR PRODUCT CATALOG]

FOUNDED = [WHERE IS YOUR COMPANY/BRAND STARTS]

CORE_VALUES = [CORE_VALUES_LIST]

BRAND_HERITAGE = [BRAND_HERITAGE_DESCRIPTION]

MISSION = [MISSION_STATEMENT]

Brand_Story = ["BRAND_STORY_LONG_QUOTE_OR_PARAGRAPH"]

DISTRIBUTION = [DISTRIBUTION_CHANNELS_OR_STORE_COUNT]

TARGET_AUDIENCE = [TARGET_AUDIENCE_DESCRIPTION]

WEBSITE_BASE = [WEBSITE_BASE_URL]

CONTENT PROJECT VARIABLES

MAIN_TOPIC = [MAIN_TOPIC_TITLE]

PRIMARY_KEYWORD = [PRIMARY_KEYWORD]

SECONDARY_KEYWORD = [platform sandals women]

SEMANTIC_KEYWORDS = [SECONDARY_KEYWORD]

USER_INTENT_KEYWORDS = [USER_INTENT_KEYWORDS]

LOCAL_SEO_KEYWORDS = [LOCAL_SEO_KEYWORDS]

TARGET_LOCATION = [TARGET_LOCATION]

CONTENT_LEVEL = [CONTENT_LEVEL]

INTERNAL LINKING VARIABLES

SUB_PILLAR_URL = [SUB_PILLAR_URL]

MAIN_PILLAR_URL = [MAIN_PILLAR_URL]

PRIMARY_PRODUCT_URL = [PRIMARY_PRODUCT_URL]

FEATURED_PRODUCT_URL = [FEATURED_PRODUCT_URL]

SISTER_TOPIC_1 = [SISTER_TOPIC_1]

SISTER_TOPIC_2 = [SISTER_TOPIC_2]

RELATED_PROBLEMS = [RELATED_PROBLEMS]

PRODUCT KNOWLEDGE

product_knowledge = [product_knowledge]

PROMPT EXECUTION:

You are an expert SEO content strategist creating a research-backed outline for [BRAND].

Research Requirements (Complete First): [PHRASE 0 ANSWER]

1. **Search for recent data on [PRIMARY_KEYWORD] and [SECONDARY_KEYWORD]**
2. **Find expert opinions from [product_knowledge] and at least 3 sources from the internet - make our article unique, Insightful, educational materials with professional knowledge**
3. **Analyze top 5 ranking articles for competitive gaps**
4. **Identify statistics and studies from 2024-2025**
5. **Research [TARGET_LOCATION] specific trends**

Brand Context to Weave Throughout:

- **Company: [BRAND] - [INDUSTRY] brand founded in [FOUNDED]**
- **Values: [CORE_VALUES]**
- **Heritage: [BRAND_HERITAGE]**
- **Mission: [MISSION]**
- **Brand Story: [Brand_Story]**
- **Audience: [TARGET_AUDIENCE]**

Content Specifications:

- **Topic: [MAIN_TOPIC]**
- **Target Length: [CONTENT_LEVEL]**
- **Primary Focus: [PRIMARY_KEYWORD]**
- **Secondary Focus: [SECONDARY_KEYWORD]**
- **Location Targeting: [TARGET_LOCATION]**

PRODUCT KNOWLEDGE

product_knowledge = [product_knowledge]

Required Outline Elements:

1. **SEO-Optimized H1 (under 75 characters with [PRIMARY_KEYWORD])**
2. **Meta Description (155 characters, compelling benefit)**
3. **Key Takeaways Table (immediate value for users)**
4. **8 Strategic H2 Sections with research-backed angles**
5. **H3 Subheadings for scannability (2-3 per H2)**
6. **Internal Linking Strategy:**
   - **Link to sub-pillar: [SUB_PILLAR_URL]**
   - **Link to main pillar: [MAIN_PILLAR_URL]**

    - Link to products: [PRIMARY_PRODUCT_URL] and [FEATURED_PRODUCT_URL]
    - Link to related topics: [SISTER_TOPIC_1_URL], [SISTER_TOPIC_2_URL], [RELATED_PROBLEMS_URL]
7. FAQ Section (7-10 questions based on search intent)
8. Expert Authority Section (credentials and experience)

Content Depth Requirements (Each H2 Must Include):

- [ ] Statistical data with source and date
- [ ] Expert quote or professional insight
- [ ] Actionable, specific advice
- [ ] Subtle [BRAND] connection to [CORE_VALUES]
- [ ] Clear user benefit statement
- [ ] Unique perspective or contrarian view

Research Integration Format:

<information>

According to [Source Name + Date], [specific data/insight]

</information>

Output: Complete article outline in markdown format with all required elements, research citations, and strategic internal linking.

PART 2: EXPERT CONTENT CREATION (Execute Third)

BRAND & PROJECT VARIABLES

BRAND = [TYPE YOUR BRAND NAME]

INDUSTRY =[WHAT YOU SELL IN YOUR PRODUCT CATALOG]

FOUNDED =[WHERE IS YOUR COMPANY/BRAND STARTS]

CORE_VALUES = [CORE_VALUES_LIST]

BRAND_HERITAGE = [BRAND_HERITAGE_DESCRIPTION]

MISSION = [MISSION_STATEMENT]

Brand_Story = [BRAND_STORY_LONG_QUOTE_OR_PARAGRAPH]

DISTRIBUTION =[DISTRIBUTION_CHANNELS_OR_STORE_COUNT]

TARGET_AUDIENCE = [TARGET_AUDIENCE_DESCRIPTION]

WEBSITE_BASE = [WEBSITE_BASE_URL]

CONTENT PROJECT VARIABLES

MAIN_TOPIC = [MAIN_TOPIC_TITLE]

PRIMARY_KEYWORD = [PRIMARY_KEYWORD]

SECONDARY_KEYWORD = [SECONDARY_KEYWORD]

TARGET_LOCATION = [TARGET_LOCATION]

CONTENT_LEVEL = [CONTENT_LEVEL]

WORD_COUNT_TARGET = [2,400-3,000 words total]

SECTION_LENGTH = [300-500 words per H2 section]

READING_LEVEL = [Conversational expert (accessible but authoritative)]

USER_JOURNEY_STAGE = [USER_JOURNEY_STAGE]

UPDATE_FREQUENCY = [UPDATE_FREQUENCY]

SITE ARCHITECTURE VARIABLES

MAIN_PILLAR_PAGE = [MAIN_PILLAR_PAGE]

MAIN_PILLAR_URL = [MAIN_PILLAR_URL]

SUB_PILLAR_PAGE = [SUB_PILLAR_PAGE]

SUB_PILLAR_URL = [SUB_PILLAR_URL]

SISTER_CLUSTERS = [SISTER_CLUSTERS]

PRIMARY_PRODUCT_URL = [PRIMARY_PRODUCT_URL]

FEATURED_PRODUCT_URL = [FEATURED_PRODUCT_URL]

TECHNICAL SEO & SOCIAL REQUIREMENTS

META_DESCRIPTION_LENGTH = 155 characters maximum

SCHEMA_MARKUP_REQUIRED = Article, FAQ, Organization, Product (when applicable)

PINTEREST_OPTIMIZATION = Required (descriptions, save buttons, rich pins)

SOCIAL_SHARING = Facebook, Twitter, LinkedIn, Pinterest, Reddit, Medium

IMAGE_ALT_TEXT = Include primary keyword when natural

FEATURED_IMAGE_SIZE = 1200x630 (social sharing optimized)

INTERNAL LINKING VARIABLES

SUB_PILLAR_URL = [SUB_PILLAR_URL]

MAIN_PILLAR_URL = [MAIN_PILLAR_URL]

PRIMARY_PRODUCT_URL = [PRIMARY_PRODUCT_URL]

FEATURED_PRODUCT_URL = [FEATURED_PRODUCT_URL]

SISTER_TOPIC_1 = [SISTER_TOPIC_1]

SISTER_TOPIC_2 = [SISTER_TOPIC_2]

RELATED_PROBLEMS = [RELATED_PROBLEMS]

Product Knowledge

product_knowledge = [product_knowledge]

PROMPT EXECUTION:

You are a certified expert copywriter with 10+ years in [INDUSTRY], specializing in [EXPERT]. You've collaborated with podiatrists and fashion designers, hold digital marketing certifications, and understand both [product_knowledge] requirements and style needs of [TARGET_AUDIENCE].

Brand You're Writing For:

- [BRAND]: [INDUSTRY] company founded in [FOUNDED]
- Heritage: [BRAND_HERITAGE]
- Values: [CORE_VALUES]
- Mission: [MISSION]
- Audience: [TARGET_AUDIENCE]

Content Assignment: Write a comprehensive, expert-level article on [MAIN_TOPIC] based on the approved outline.

Mandatory Writing Requirements:

EXPERT VOICE:

- **Write as certified professional with industry credentials**
- **Include personal anecdotes and professional insights**
- **Challenge conventional thinking with evidence-based contrarian views**
- **Reference collaborations with podiatrists/designers**

WRITING STYLE:

- **Natural, conversational flow (not robotic or formulaic)**
- **Varied sentence structure (mix 5-word and 25-word sentences)**
- **80%+ active voice usage**
- **Subject-Verb-Object order for clarity**

FORBIDDEN LANGUAGE: Never use: step into, believe it or not, buckle up, navigating, when it comes to, embarking, bespoke, look no further, meticulous, realm, tailored, underpins, ever-evolving, diving into, designed to enhance, daunting, unlock the secrets, elevate, game-changer, revolutionary

CONTENT REQUIREMENTS:

Structure:

- **H1 with [PRIMARY_KEYWORD] (under 75 characters)**
- **Key takeaways table at top**
- **8 H2 sections with H3 subheadings**
- **FAQ section with schema markup potential**
- **About the expert section**

Each Section Must Include:

- **Statistical data with recent sources**
- **Expert quotes or insights**
- **Actionable, specific advice**
- **Natural [BRAND] connection to [CORE_VALUES]**
- **Clear user benefits**
- **Unique perspectives**

Technical Elements:

- **Meta description (155 characters max with [PRIMARY_KEYWORD] and compelling benefit)**
- **Schema.org JSON-LD markup for Article, FAQ, Organization, and Product**
- **Pinterest optimization (Rich Pins, save buttons, descriptions)**
- **Social sharing meta tags (Open Graph, Twitter Cards)**
- **Internal links with keyword-rich anchor text to [REQUIRED_LINKS]**
- **Image optimization (alt text, Pinterest descriptions, social sizes)**

- Mobile-friendly formatting with proper heading hierarchy

Content Variety:

- Comparison tables (minimum 1)
- Bullet point lists for complex info
- Step-by-step guides where relevant
- Expert tip boxes
- User engagement questions

Brand Integration: Subtly weave in [BRAND]'s connection to:

- [CORE_VALUES] (especially sustainability and contemporary design)
- [BRAND_HERITAGE] and skate culture influence
- [MISSION] regarding ESG and carbon neutrality
- Products: [PRIMARY_PRODUCT_URL] and [FEATURED_PRODUCT_URL]

Quality Targets:

- Reading time: 12-15 minutes
- Scroll depth: 80%+ reach FAQ
- Internal link CTR: 15%+ to product pages
- Expert credibility clearly established

Output: Complete article in markdown format with comprehensive technical SEO package including:

CONTENT DELIVERABLES:

- Full article in markdown format
- Meta description (155 characters, compelling, with primary keyword)
- H1 title optimized for CTR and SEO (under 75 characters)
- Social sharing descriptions for Facebook, Twitter, LinkedIn, Pinterest

TECHNICAL SEO PACKAGE:

```
<!-- META TAGS -->

<title>[H1 Title with Primary Keyword]</title>

<meta name="description" content="[155-character compelling description]">

<meta name="keywords" content="[Primary, secondary, and semantic keywords]">

  }

}

</script>
```

PINTEREST OPTIMIZATION ELEMENTS:

- Pinterest Save Buttons for each major image with custom descriptions
- Pinterest-optimized image descriptions (keyword-rich, actionable)
- Rich Pins markup for enhanced Pinterest display
- Vertical image suggestions (2:3 ratio, 1000x1500px minimum)

IMAGE SPECIFICATIONS:

- **Featured Image: 1200x630px (social sharing optimized)**
- **Pinterest Images: 1000x1500px vertical (2:3 ratio)**
- **Alt Text Format: "Descriptive text with [PRIMARY_KEYWORD] when natural"**
- **Pinterest Descriptions: "[Actionable benefit] - [keyword-rich description] | [BRAND]"**

All elements optimized for [TARGET_AUDIENCE] in [TARGET_LOCATION] with natural [BRAND] integration.

AGENCY USAGE INSTRUCTIONS

1. **Copy the prompt you need (Phase 0, Part 1, or Part 2)**
2. **Update the header variables for your client's brand**
3. **Fill in the specific content variables for the current project**
4. **Execute in sequence - each prompt builds on the previous**
5. **Review and refine based on client feedback**

Part 6 prompt - need fix

EXECUTION MODE: BUILD SOURCE 6 (FINAL v2 - STRICT)

CONTEXT:

We are building the "Topic Cluster Writer" (Source 6).

We are connecting the user's "v2" Word Template to the Python Logic.

STRICT RULE: The system must NOT hallucinate. It relies 100% on the User's Template and provided Internal Links.

INPUT FILES:

1. Data: `V2_Engine/database/internal_links_v1.csv` (The Map)

2. Template: `V1_Legacy/00_docs/Universal Brand SEO Content System - Executable Prompts v2.docx`

TASK 1: DEFINE SAAS INTERFACE (interface.py)

Create `V2_Engine/processors/source_6_seo/interface.py`.

- Define Enums exactly as they appear in the User's v2 Doc (for perfect Find/Replace):

  - `Mode`: BRAND, RETAILER

  - `ContentLevel`:

    PILLAR_L1 = "Level 1: Pillar Page (Comprehensive Guide, 3,000-6,000 words)"

    SUBPILLAR_L2 = "Level 2: Sub-Pillar Page (In-depth Topic, 2,000-4,000 words)"

    CLUSTER_L3 = "Level 3: Cluster Content (Specific Question, 1,500-3,000 words)"

    SUPPORT_L4 = "Level 4: Support Content (Quick Answer, 800-1,500 words)"

- `UserJourneyStage`:

  AWARENESS = "Awareness Stage (Focus on Problem Solving & Education)"

  CONSIDERATION = "Consideration Stage (Focus on Comparison & Best Options)"

  INTENT = "Intent Stage (Focus on Why Buy This Specific Product)"

  PURCHASE = "Purchase Stage (Focus on Deal, Warranty, & Specs)"

- `UpdateFrequency`:

  DAILY = "Daily Optimization"

  WEEKLY = "Weekly Optimization"

  MONTHLY = "Monthly Optimization"

  BIMONTHLY = "Bi-monthly Optimization"

  QUARTERLY = "Quarterly Optimization"

  SEMIANNUAL = "Semi-annual Optimization"

  ANNUAL = "Annual Optimization"

- Define `ClusterRequest` Model:

  - `mode` (Mode)
  - `seed_keyword` (str)
  - `brand_name` (str)
  - `content_level` (ContentLevel)
  - `journey_stage` (UserJourneyStage)
  - `update_frequency` (UpdateFrequency)
  - `knowledge_base` (Optional[str])
  - `variables` (Dict): For [INDUSTRY], [TARGET_LOCATION], etc.

TASK 2: BUILD "LINK INJECTOR" (link_manager.py)

Create `V2_Engine/processors/source_6_seo/link_manager.py`:

- `get_relevant_links(keyword)`: Returns formatted internal links from CSV.

- Note: This currently pulls from Source 5 (Site Map). In the future, we will combine this with Source 0 data.

TASK 3: BUILD PROMPT BUILDER (prompter.py)

Create `V2_Engine/processors/source_6_seo/prompter.py`.

1. READ `v2.docx`. Extract Part 0, 1, 2.

2. IMPLEMENT `PromptBuilder`:

  - `_get_instruction(mode)`:

    - BRAND: "Role: Brand Director. Tone: Passionate, Storyteller. STRICTLY follow the User's Knowledge Base."

    - RETAILER: "Role: Product Curator. Tone: Objective. Focus on Value. Do NOT invent a brand heritage. Focus on 'Why we chose this'."

  - `_generate_part_3_knowledge(mode, knowledge)`:

    - BRAND: Inject "PART 3: PROPRIETARY KNOWLEDGE BASE"

    - RETAILER: Inject "PART 3: CURATION STANDARDS"

  - `build_plan_prompt(request)`:

    - 1. Get _get_instruction.

    - 2. Read Part 0 text from v2 Doc.

    - 3. REPLACE `[CONTENT_LEVEL]` with `request.content_level.value`.

    - 4. REPLACE `[USER_JOURNEY_STAGE]` with `request.journey_stage.value`.

    - 5. REPLACE `[UPDATE_FREQUENCY]` with `request.update_frequency.value`.

    - 6. INJECT Internal Links (append to end if "Internal Linking Blueprint" not found).

    - 7. Return formatted prompt.

- `build_write_prompt(request)`:
  - Part 1 + Part 2 + Part 3 (Knowledge).

TASK 4: TEST RUNNER

Create `V2_Engine/processors/source_6_seo/test_full_flow.py`.

- Mock Request A: Mode="BRAND", Keyword="Baby Feeder".
- Mock Request B: Mode="RETAILER", Keyword="Baby Feeder".
- Run both.
- ASSERTION 1: Check if "Link Injector" found the Amazon Course links from CSV.
- ASSERTION 2: Check if Request A prompt has "Brand Director" and Request B has "Product Curator".

GOAL:

A clean Content Engine that strictly adheres to the User's v2 Template and Mode Selection.
